PROFESSIONAL SUMMARY

Data Analyst with 6 years of experience delivering end-to-end data solutions across **data ingestion, transformation, modeling, and visualization**. Skilled in building scalable **data pipelines**, defining **KPI frameworks**, and automating reporting to generate measurable insights and drive actionable outcomes. Proficient in **SQL, Python, BI tools, and cloud platforms**, with strong expertise in **ETL/ELT workflows, data quality management**, and cross-functional collaboration in Agile environments.

SKILLS

Business Intelligence & Visualization: Power BI, Tableau, Looker Studio, QuickSight, MS Excel

Data Analytics: Data Modeling, Exploratory Data Analysis (EDA), Trend & Variance Analysis, Forecasting

Cloud & Data Platforms: Snowflake, BigQuery, Salesforce Data Cloud, AWS, Databricks, Google Analytics 4

Data Governance & Quality: Data Validation, Data Stewardship, Reconciliation, Metadata Management

Programming & Scripting: SQL, Python, JavaScript, HTML5, CSS3

Project & Collaboration Tools: Agile Methodology, JIRA, Confluence, SharePoint, GitHub, BRD/FRD

WORK EXPERIENCE

Principal Global Services

Dec 2023 - Present

Data Analyst & Strategist

- Designed multi-source **data ingestion** workflows by integrating customer, digital, and operational data from disparate systems into centralized cloud data environments for unified reporting and analytics.
- Developed dashboards in **Power BI** and **Tableau** to support executive reporting, business analysis, and KPI monitoring, improving reporting efficiency by **40%** and reducing decision turnaround time.
- Leveraged **Salesforce Data Cloud** to unify customer and business data from multiple source systems, enabling audience segmentation, customer-level analysis, and more connected business insights.
- Built **ETL/ELT pipelines** using **SQL** and **Python** to extract, transform, and load structured data into **Snowflake**, processing millions of records monthly and enabling scalable **data transformations** with reliable downstream consumption.
- Collaborated with **business stakeholders** to translate analytical requirements into delivery plans, refine user stories, contributing to consistent **sprint delivery** in **Agile environments**.

Cybage Software

Dec 2020 - Dec 2023

Data Analyst

- Performed **exploratory data analysis (EDA)** on large-scale behavioral and operational datasets to identify trends, uncover anomalies, and generate actionable insights for business performance optimization.
- Built and monitored performance metrics across digital and business functions by developing **KPI frameworks** and scorecards to measure trends, efficiency, and stakeholder-defined success criteria.
- Developed and optimized Power BI **data models** using relational schemas, table relationships, and reusable **DAX** measures, improving dashboard performance by **30%** and enabling scalable analytics.
- Conducted **root cause analysis (RCA)** on reporting variances and performance drops by investigating source data, tracking logic, and process dependencies, reducing recurring data issues by **25%**.
- Performed **A/B testing** analysis using user behavior and conversion data to measure experiment performance, generate actionable insights, and support data-driven business decisions.
- Supported **GDPR**-compliant data collection practices by validating consent-based tracking logic, reviewing data capture processes, and ensuring alignment with **privacy** and **governance requirements**.

EDUCATION

Bachelor of Technology

Bharati Vidyapeeth University, College of Engineering, Pune
Stream: Information Technology | CGPA: 9.34

Jul 2016 - Jul 2020

Higher Secondary Education

St. Arnold's Higher Secondary School — CBSE
Stream: Mathematics

April 2014 - May 2016

CERTIFICATIONS

- Microsoft Data Analytics Certification
- Power BI – Reporting and Visualization
- Business Analytics for Professionals
- Google Cloud Foundation
- Google Analytics Certification
- Google Tag Manager Certification

AWARD & PUBLICATION

- **Award:** Received the '*Rising Star*' award for outstanding contributions, performance excellence, and impactful collaboration across the organization.
 - **Publication:** Authored and published research paper 'Image Processing using Machine Learning' in the *International Journal of Science & Engineering Development Research*. The paper explored applications of machine learning techniques, such as SVM and CNN, to solve real-world image recognition challenges, highlighting analytical and research skills in technology-driven problem solving.
-
